Dear Jim,

NW. 9aok I've heard you are interested in our online PE class. Now I'd like to introduce it to you.

Before the class, it is necessary to prepare a pair of comfortable shoes and an open area at home if possible. The online PE class always begins with a warm-up, which helps get our bodies warm and get ready for the next step. During the class, we often watch videos on how to do indoor exercises properly. Then, we practice doing different sports while our teacher gives us some guidance occasionally. At the end of the class, we usually share some useful tips on how to keep a balanced diet and healthy lifestyle at home. Online PE class makes us feel relaxed and encouraged, which not only helps us get fit, but also relieves our stress and tension.

That's all for our online PE class. If you want to know more, contact me!

Yours, Li Hua
