Possible Version

Dear Jim,

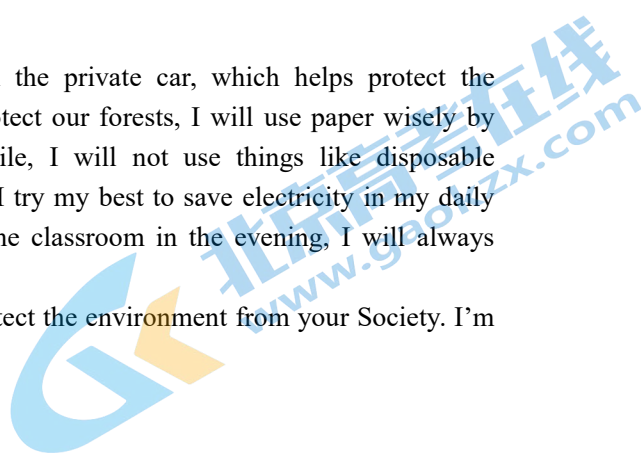

Knowing you are a member of Environment Protection Society, I do appreciate your choice. Indeed, with the improvement of our living standard, the environmental problems are becoming more and more serious.

However, everyone can do something for our environment. For me, I travel between home

and school by bike or public transport rather than the private car, which helps protect the environment and keep me fit as well. In order to protect our forests, I will use paper wisely by using both sides whenever it is possible. Meanwhile, I will not use things like disposable chopsticks because they are made of wood. Besides, I try my best to save electricity in my daily life. For example, if I am the last person to leave the classroom in the evening, I will always remember to turn off the lights.

I believe you must have learned more tips to protect the environment from your Society. I'm looking forward to have further discussion with you.

*Yours,
Li Hua*
