

**General information about Multiple Mini Interviews (MMI) to students
applying the program of
Bachelor of Medicine & Bachelor of Surgery
(Year 2026)**

During the MMI, candidates will rotate through up to three interview stations. Each candidate will have one minute to read the instruction posted outside each station. After the bell, candidates will enter the station. The total interview duration will be approximately twenty minutes.

Please note that this is not an academic examination. You will have the opportunity to showcase your communication skills and critical thinking as you prepare for medical studies. There are no right or wrong answers; you are encouraged to express your thoughts freely.
